4. PROJECT DESCRIPTION

4.1 Introduction

I completed a one-month **Fundraising Internship at Queens Of Change Foundation from 22 June 2026 to 22 July 2026**. During this internship, I worked as a Fundraising Intern and learned about fundraising, outreach, communication, and social awareness.

Queens Of Change Foundation works for the empowerment of underprivileged women and girls. Its major areas include menstrual health, sanitary pad distribution, health education, women empowerment, and community outreach.

The internship gave me practical experience and helped me understand the importance of communication, patience, teamwork, and consistency while working for a social cause.

4.2 Organization Profile

Queens Of Change Foundation is a women-led organization working towards positive social change and women's empowerment.

Its main activities include:

- Providing free sanitary pads to underprivileged women and girls.
- Creating awareness about menstrual health and hygiene.
- Supporting women through skill development and mentorship.
- Reaching communities and understanding their needs.

According to the information provided by the organization, it has distributed **2,00,000+ sanitary pads**, reached **500+ communities**, and directly impacted **50,000+ lives**.

4.3 Problem Statement

Many women and girls, especially from underprivileged communities, face difficulties related to menstrual hygiene, lack of awareness, and social stigma.

Social organizations need public awareness and support to continue helping these communities. Therefore, my internship focused on supporting the foundation's fundraising and awareness activities by reaching potential supporters, explaining the cause, and encouraging people to support the campaign.

4.4 Project Objectives

The main objectives of my internship were:

- To understand the fundraising process.
- To promote fundraising campaigns.
- To create awareness about social causes.
- To improve communication skills.
- To develop confidence and teamwork.
- To learn professional work practices.
- To understand the importance of follow-ups.
- To gain practical work experience.

4.5 Scope of the Project

The project mainly focused on **fundraising, outreach, communication, and awareness.**

My work included promoting fundraising campaigns, reaching potential supporters, explaining the organization's work, communicating campaign information, and following up with interested people.

The internship also helped me develop professional skills and understand how social organizations connect with people to support their causes.

4.6 Technologies and Tools Used

The internship was mainly related to fundraising and social outreach, so it did not involve programming.

The major tools and methods used were:

- Digital communication
- Online outreach
- Social media/digital platforms
- Communication tools
- Documentation and record keeping

These helped in sharing campaign information, communicating with supporters, and completing assigned tasks.

4.7 System Architecture

Since the internship was related to fundraising rather than software development, a traditional technical system architecture was not used.

The fundraising process can be shown as:

Understand the Cause → Reach People → Create Awareness → Request Support → Follow Up

This process helped me understand how consistent communication and follow-up are important for fundraising.

4.8 Methodology

The work was carried out through the following steps:

1. **Understanding the Organization** – Learned about the foundation and its social initiatives.
2. **Understanding the Campaign** – Learned about the purpose of the fundraising campaign.
3. **Reaching People** – Contacted potential supporters.
4. **Creating Awareness** – Explained the organization's work and social cause.
5. **Requesting Support** – Encouraged interested people to support the campaign.
6. **Follow-up** – Maintained communication with interested supporters.
7. **Completing Tasks** – Completed the activities assigned by my mentor.

This process helped me improve my communication and confidence.

4.9 Expected Outcomes

The internship helped me gain practical knowledge and improve several skills, including:

- Communication
- Fundraising and outreach
- Teamwork
- Time management

- Interpersonal skills
- Professionalism
- Confidence

It also increased my awareness of menstrual health and women's empowerment. These skills and learning outcomes are consistent with the internship presentation.

4.10 Certificates of Completion and Communication Proof

The Internship Offer Letter and the Internship Completion Certificate issued by Queen Of Change Foundation, confirming successful completion of the 4-weeks Fundraising Internship.

This is to certify that the bearer has successfully completed an internship with Queen Of Change Foundation as a fundraise work Intern.

During the internship, the intern worked on assigned projects and responsibilities under the guidance of the Queen Of Change Foundation team, gaining valuable practical exposure and professional experience. The intern consistently demonstrated dedication, creativity, responsibility, and professionalism throughout the internship period.

Based on our assessment, the overall performance of the intern was Good to the best of our knowledge.

We appreciate the intern's contributions and wish the intern all the best for future endeavors.
